MEMORANDUM FOR: Assistant to the Director  
SUBJECT : Expanded-Iron Window Grills

Angus:

Reference is made to your memorandum of 10 April 1974, which referred to Mr. [ ] suggestion that the iron protective grill work be removed from your office because of the depressing atmosphere this creates to newsmen.

STAT

While I thoroughly respect the position of Mr. [ ] from an aesthetic and interior design standpoint, I must weigh this against any possible erosion of our overall physical security standards in the Headquarters Building. It is part of a much larger picture, relating to the entire ground level area, and the location of your one small safe is not particularly pertinent.

If the newsmen consider this to be a depressing prison-like atmosphere, I can only suggest that you draw your drapes.
